

These are just a few suggestions of where to stay in the Aviemore area and should include something for everyone. In our opinion, they are all comfortable, friendly and a safe bet that your stay will be a good one. The area has a wide range of places to eat out, local shops, a supermarket and a good selection of outdoor retailers. You can be picked up and dropped off at any of these places (unless stated) and all the B&B's will leave out a continental breakfast if we require an early start. If you'd like more suggestions or help with choosing accommodation, just get in touch.
